LAST NIGHT'S NEWS.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

DOMESTIC.

Congress this Week.

Washington, March 7th.—The chief business of the Senate for the coming week is expected to be the discussion of the resolutions reported from the Judiciary Committee concerning the refusal of the Atiorney General to transmit all papers in the Duskin case. The debate will begin at 2 o'clock to-morrow. The Committee on Pacific Railroads will endeavor to bring before the House, during the morning hour on Tuesday, the bill requiring the Pacific railroads to pay the cost of surveying and taking out patents for lands, so as to subject them to local taxation. There are various other measures on the different calendars as unfinished business, but in view of the number of pending appropriation bills, it is not likely that any of them will reach final action during the week.

The political interest.

St. Louis, March 7th.—Grain receivers here are very much alarmed about the railroad situation, and fear shutting off of receipts that will paralyze business. Considerable corn has been purchased along the Gould lines for shipment this week, but purchasers say they do not believe they will be able to move it. On the present urgent demand for export corn, they say it will work a hardship that cannot be estimated.

On the present urgent demand for export corn, they say it will work a hardship that cannot be estimated.

St. Louis, Marc Congress this Week. THE POLITICAL INTEREST.

A NATURAL interest of the present week in Congress will center in the Senate. On Friday last Senator Edmunds gave notice that to-morrow he would call up the report of the Judiciary Committee in the Duskin Alabama case, which involves the controversey between the Persident end the Senator Edmunds for the Duskin Alabama case, which involves the controversey between the Persident end the Senator Edmunds for the Se between the President and the Senate as to the right of the latter to have information on the files of the Executive Departments relative to suspensions from and appointments to office. The views of the Democrats are expressed in the recent message of the President and the report of the minority of the Judiciary Committee, prepared by Senator Pugh. The debate promises to be very long and sprited, and it is certain that the Republican leaders will make all the positical capital they can. Logan, Ed-munds, Sherman, Harrison and Hoar will lead the Republican fight, and Pugh, Jackson, McPherson, Call and Morgan will do battle for the minority. The principal point of the controversy is whether the Senate has the right to see papers on file in the de-partments relating to the suspension of officials, as well as papers bearing upon appointments. The burden of Senator Edmunds' argument in support of this proposition is that as, under the law, a proposition is that as, under the law, a suspended officer resumes his position at the expiration of the session of the Senate if his successor is not confirmed, the Senate, in the exercise of its consenting power, should know whether a man who is removed by the President is really unfit to hold the office, and the suspended man is really fit to be allowed to continue in the discharge the suspended man is really fit to be allowed to continue in the discharge the suspended man is really fit. by the President is really unfit to hold the office, and the suspended man is really fit to allow the Knights of Labor to examine to be allowed to continue in the discharge of public duties. Mr. Edmunds will contend that the President has declared that he would not remove officers except for cause, consequently some valid reason, not political, must, exist, for the suspension of the content of the suspension of the suspens political, must exist for the suspension of the 650 Federal officers that have been sus-

pelled the President to make official changes, and that any attempt to compel the heads of departments to furnish information that the President desires withheld is an infringement upon the constitu-tional prerogative of the Executive. The Attorney-General is said to have recently rendered a verbal opinion upon the tenure of office, and it is this which causes the Democratic Senators some annoyance. He holds that in the event of a failure of the Senate to confirm a nomination to succeed a suspended officer, the person suspended resumes his office at the expiration of the resumes his office at the expiration of the session of the Senate, and, further, that if the Senate does not act upon the nomination, either favorably or adversely, the President will not be justified in reappointing the same person during the recess of Congress. If this opinion of the Attorney-General is correctly reported, and the Senate refuses to act upon any number of nominations, Mr. Cleveland, should be follow the advice of the law officer of the Government, would be compelled to take entirely new men for be compelled to take entirely new men for the positions that he has once filled. Un-der Republican administrations it has been held that the President has the right, if he chooses, to reappoint the men who have failed of confirmation, either because of non-action by the Senate or in a few in-

stances nominations that have been absolutely rejected. The Chinese Question Washington, March 7th.—The Foreign Affairs Committee of the House, to-morrow, will take up the report of the sab mmilee recommending the passage of orrow's anti-Chinese bill. In this connection the committee will consider the President's message recommending payment to the sufferers by the Rock Springs outrages of the losses they incurred. The Sunday Post to-day says: "It is impossible to learn at this time what position the committee will take in the mat'er. There can be no doubt, however, that there is a strong disposition to make the question a political one. The Democratic members of the committee favor reimbursing China TERMS OF SALE: One-quarter Cash; deferred payments to draw interest at 6 per cent. per annum—pur-chaser paying taxes on land.

If the content is a content is a content is a content in the main and the content is a content in the main and the content is a content in the main and the content is a content in the main and the content is a content in the main and the content is a content in the main and the content is a content in the main and the content in the content i for all losses caused by the riotous acts of tee deny that they intend approaching the to it is situate eight miles from the city, on Jackson Road. Editorial Report on the Recent Florida Freeze.

JACKSONVILLE (Fla.), March 7th.—At the annual meeting of the National Editorial Association, held in Cincinnati, a delegation was appointed to visit Florida and report to the Association their conclusions as to the effect of the recent freeze on the Jacksonville Friday night, and adopted and signed an official report, in which they say: "In a boundary of 600 miles, covering nearly 30,000 square miles of territory, at nearly every important station, we have visited orange groves and examined the state of the trees and extent of the damage done. The country traveled over comprises the main orange-producing district in the State. In many places the lemon and other less hardy fruit groves are killed. These trees, however, are of rapid growth, and will be speedily replaced by new trees. In some localities, where the orange groves are sheltered in some decree by other trees. are sheltered in some degree by other trees the freeze was not sufficiently severe to kill the leaves on the trees." After giving specific details of other observations at the various points visited, the committee says: "Our observations led to the conclusion that the reports so unfavorable to the orange industry which followed the frost, were largely the result of a panic among the orange-growers themselves, arising from insufficient information. The few weeks which have since elapsed have changed the face of nature, and lifted the cloud from Florida's great industry." Great Strike of Miners Threatened.

strike to-morrow if their wages are not advanced. The Federation is composed of miners in the Georges creek region, Md.; Elk Garden, W. Va.; Pocahontos, Va. The Salisbury and Clearfield (Pa.) strike will be for ten cents advance in the price of digging coal, and at least 10,000 miners will be affected by it. The general strike affects the mines which ship coal to the East, and not those shipping to the West. In the Myersdale or Salisbury region there are about 4,500 miners, and it is rumored that one firm has granted the advance. If this be true, it is likely that the remainder will follow their example. Affairs in the Missouri Pacific yards have been at a standstill all day. No attempt has been made to move freight to-day, and as all the yard men are out, much difficulty has attended the making up, of passenger trains. Washington, March 7th.—The political teaded the making up of passenger trains. The train which left for the West to-night had to be made up by officials of the road.

IN STATU QUO. GALVESTON, March 7th.— The labor troubles throughout Texas remain in statu quo. There are assurances that both sides will probably attempt a coup d'état to-morrow. At this point, the twelve local Assemblies of the Knights of Labor held prolonged meetings to-day. Sherman advices say, that orders have been received

spondent learns, on undisputed authority, that the long-talked-of fight between Jack Dempsey and Le Blanche, "the Marine," will take place in this city on either Mon-day or Tuesday of next week- The utmost caution has been used by the backers of the contest to prevent the date of the fight becoming known to the police. There are to be only twenty men on a side, and each of them subscribe \$75. The fight will be conducted under the Marquis Queensberry rules, six rounds, man scoring the most points to take not only the \$3,000 paid in by the subscribers, but a purse of \$5,000 besides. Sporting men are on tiptoe of ex-pectancy. Many well-known brokers of sporting proclivities have offered large sums to witness the match. It seems, however, to be the intention of both Gas Tuthill and Tom Bogue, the backers of the the two pugilists, to have the fight strictly

private Great Fire in Jersey City. New York, March 8th .- 2:10 A. M.-A great fire is in progress at the docks of the Monarch line of steamers, adjoining the Eric Railroad, in Jersey City, which lights up the lower portion of this city. Much damage is likely.

[SECOND DISPATCH.] New York, March 8th .- 2:30 A. M .- The fire is spreading in all directions. Evidently many acres are burning. Explosions are plainly visible from the tall buildings in New York, and the constant blowing of tug whistles in the river are evidently to call assistance to remove the ocean steamers

[THIRD DISPATCH.] New York, March 8th .- 2:45 A. M .- One of the Monarch line steamers is now burn-

FOURTH DISPATCH! JERSEY CITY, March 8th-3 A. M.-The docks of the Mone ch Line Steamship Company are on fire. Assistance has been called for from New York. The Erie pas-senger depot is in great danger. The fire broke out shortly after 2 A. M., and at this nour is still raging futiously

FIFTH DISPATCH.1 JERSEY CITY, March 8th-3:30 A. M.-The flames are still burning fletcely.

[SIXTH DISPATCH.] JERSEY CITY, March 8th-3:45 A. M.-In addition to the first reports, the Monarch Steamship Company's dock is wiped out, filled with European freight. Agent Marmake Tilden says it is well insured in English companies. The steamships Lydian Monarch and Egyptian Monarch appear to be badly damaged. The latter was pulled into midstream. The flames also destroyed the Erie Company's milk depot, a long shed on Pavonia avenue, and burned five cars loaded with milk.
Twelve other cars were pulled out of danger. The Erie grain elevator is being wet down, and is probably safe. At 3:45 o'clock the ferry-houses and depot stand a

good chance of being saved. Fatal Duel with Pistols.

Снінианиа (Mexico), March 7th. luel with pistols, between Trinidad Levarezand Henri Paredez, has just been fought in the suburbs of this city. Paredez re-ceived three wounds, and it is believed will die from his injuries. The first two shots fired at Levarez missed him, but the third struck him in the forehead, killing him instantly. Both were prominent here. The duel was caused by a quarrel between the families of the two men, in which they became involved. Paredez was the challenging party.

Notorious Bandit Killed. HAVANA, March 7th .- The bandit known as Juan Gonzalez, Cristobal Diaz, El Patil-luno, Long-Bearded, and many other aliases, has been killed by the civil guard stationed at Majagune. He had committed many murders, and it is reported that he was the person who received the ransoms paid for the release of Don Julio Cussi and child Riera, after their abduction. In one of the bandit's pockets there was found a list of fifteen rich and well-known proprie-

tors of sugar plantations, and it is believed that it was his intention to kidnap and hold them for ransom. The Irish Problem PITTSBURG, March 7th.—The miners within the bounds of Federation No. 3 will strike to-morrow if their wages are not advanced. The Federation is composed of the four provinces of Ireland alarms some of the friends of home rule, and increases the importance and difficulties of the Irish problem. Others, however, look on the scheme of creating representative legislative bodies for the different divisions of Ireland with favor, and among them is John O'Leary.

GREAT ART SALE. Spirited Bidding by Millionaires for

Paintings. New York, March 6th.—The third and last evening's sale of the pictures collected by the late Mary J. Morgan brought to Chickering Hall last night a larger audi ence than previously attended. A majority of the buyers were millionaires and speculators. The eighty pictures sold brough \$487,975. The total amount of sales for the three evenings was \$885,300, about \$250,000 less than they cost Mrs. Morgan. The Times says of the great art sale: The greatest price brought was \$45,500, which was paid for Jules Breton's "Commun was paid for Jules Breton's "Communi-cants" picture, which it was thought might bring \$30,000. It was started at \$20,000 by S. P. Avery. Walter Watson, who repre-sented Donald A. Smith, and Knoedler, an art dealer, raised the price rapidly by bids of \$500 until Mr. Avery bid \$30,000, which was greeted with round after round of applause. With bids of \$500 at a jump the price rose, and the audience was a suite to a suite the surface. the audience was as quiet as a mouse until Mr. Avery's bid of \$35,000 again evoked long and hearty applause. On went the bidding, and the California millionaire Charles Crocker, took a hand personally and excitedly bid \$37,000, which again se the audience in an uproar. On and on the bidding went, \$500 a step being taken each time, until \$40,000 was bid. Avery

had dropped out, and the contest was now between the California millionaire and his Canadian rival, and the price for the coveted canvas advanced rapidly, but surely. "Forty-five thousand!" shouted Crocker's representative, a bid which broke the oppressive silence, and applause followed t; "and five hundred," came in the same uset and determined tones from Watson.
Forty-five thousand five hundred," called Kirov. Two or three times Crocker looked in Watson's direction as if he would like to choke off that exasperating \$500 bidder. He tugged a moment at his gray goatee, White. turned and whispered to a party of friends who were with him, and then, apparently satisfied that he could not buy, sank back

on his chair and gave up the contest.

Crocker fared badly again in his attempt to buy a brilliant bit of color, painted by J. G. Vibert, called "The Missionary's Story." It was applauded when it was set on the casel, and the selling began with a bid of \$15.000 by C. P. Huntington. \$15,000 by C. P. Huntington. Auctionee Kirby had no opportunity to announce the bid, for Avery at once made it \$20,000. By bids of \$1,000 at a time it went up to \$25,000. Then Avery made his last assault with a bid of \$25,250. Huntington then nodded to the auctioneer, who shouted "Twenty-five thousand five hundred!"

Huntington pushed his gill about 15 and 15 allowed to the auctioneer, who shouted "Twenty-five thousand five hundred!"

REPUBLICANS' DUTY. To-morrow a local contest will be begun and decided for a portion of the municipal offices. So long as parties are to maintain their present relation to municipal government, the choice of the voter must be between the candidates of the two great parties, the one representing the dominant political power in the nation, the other the party that preserved the Republic in the hour of its supremest peril, and on the principles of which has been built the nation as it is to-day, unstained by human slavery, and recognizing the rights of man in all their fullness. The dominant party has, until recently, been simply that of opposition. Its end and aim has been the gaining of power for the sake of office. So nicia last week. far as it rises, it does so only upon the errors of the Republican party. It has no ville yesterday, to appear in a case in which some hydraulic miners are to be brought claim to represent as fundamental printhose that the Republican party has either maintained or successfully refuted and shown to be chimerical and unwise. In even a municipal election, therefore, the importance of proving true to the party the choosing of municipal administrators, city elections will be cut loose from party The present duty of Republicans is to be loyal to the party. Every reason that forday. It is, as it always has been, the party representing the broadest thought of true democracy, and the very highest plane of liberty. It has, like all human organizations, had its errors, and been deceived in its administrators here and there. But it has invariably proven itself equal to the correction of its ills, and the eradication of its errors. It is the only party known to the history of the Republic that has proved its capacity to meet any emergency and grapple with any difficulty. It is needless to recount its history, since it is identical with the era of the nation's greatest progress and loftiest achievements. The duty of old Republicans to-morrow will be to stand by their candidates. These are fully capable, and have the indorsement of the men of the party, and of whom there is no reason to expect other than faithful, diligent and conscientious discharge of duty. There is, then, no excuse for desertion of the old party in the face of the old-time enemy. Young Republicans, whose majority does not date back sufficiently far to enable them to recall the personal his tory of the genesis and growth of the organization, will find that its written his tory and traditions appeal to every manly impulse, to every chivalrous sentiment. and to the patriotic sense with irresistible strength, if it is read with thoughtful attention and honest concern. Young Republicans are those among whom the Democratic evangelists hope to do the Officer to investigate and report. most missionary work. They should, of all others, give least heed to the allurements employed to draw them from the support of the party. Personal effort, renewal of the stalwart spirit of old, ad-other prominent citizens, and Monsignor hesion to the party, determined resistance to all offers to dicker or barter for Democrats, will secure to the Republicans of this Republican city a sweeping victory, and restore the administration of municipal affairs to the hands of the Republican party. And this means a great deal, when it is recalled that, in a few weeks more, we shall be engaged in a State campaign, which, in its turn, will have a direct influence upon a not far distant national campaign. All events that conspire to write defeat upon the esion to the party, determined resistance Capel, the eminent Catholic divine and dis-

This journal, some years ago, in common with some of the best and foremost papers of the land, discussed this question in all its phases, arriving at the unqualified conclusion that it is a species of regulation worthy of considera species of regulation worthy of consideration and adoption by all communities. Since then we have noted its progress and March 4th: seen it adopted into the policy of States and cities with positive success and with growing favor. No sentimentalism has had part in our estimation of the question,

and while the debate has been not a little efogged, and prejudice appealed to for and against it, we have heard no reason to induce us to believe that it is not a wise policy. We believe that, so far from being sentimental question, it is simply one of

municipal regulation and economy-as much in the interests of those engaged in the liquor traffic as those of the consumer. Indeed, it has all along appeared to us that the men who should especially favor the policy are those whose business is most directly affected by it. Let it be decided to-morrow, without heat or appeals to prejudices, as a question of regulation; without implicit faith in the speculations of either its friends or its opponents. For there is this about it, that, if adopted, it

applies only to the retailing of liquors over bars, and not to sale by drug stores or in bottles, and if it is found to be so direful as some of our citizens anticipate, it is the simplest thing in the world to abandon it and return to the present system. The question presents an issue of excess supply. THE HIGH-LICENSE DEBATE. The Liquor-Dealers' Association Speaks

Answers to Questions. SACRAMENTO, March 6, 1886.
EDS. RECORD UNION: We are pleased to see he independent and fair stand you have taken the independent and fair stand you have taken in the agitation now occupying the people's minds in regard to the high license in this city. The businese community in general appreciates your kindness, and, feels grateful therefor. If the inclosed article is not too lengthy and you can find space for it, please insert it in your Monday's issue. Accept the thanks of our Association in advance, as I shall bring the matter before them this evening. Very truly yours

GEORGE W. CHESLEY, President. We all remember reading in our boyhood days of the Revolutionary tea party, and recollect how our youthful blood of how the English Government imposed and forced the collection of an unjust and unwarranted tax upon the Colonists. It was unjust, and in consequence met with the proper resentment, which cost Engther proper resentment, which cost Engineer has become land the loss of what since has become the fairest land upon the earth. Our Government owes its origin to the fact that her people rebelled against unjust and discriminating taxation. That same feeling has grown with her growth, and increased with her strength, until to-day the United States stands forth among the nations of the earth like a mighty meteor, a beacon light for the downtrodden and oppressed of light for the downtrodden and oppressed of the latter business. This being the case, where is the injustice of adopting such laws as will give the property of honest, hardworking citizens its true value, if at the working citizens its true value, if at the wo light for the downtrodden and oppressed of

every country.

The imposition of a high license at this as shown by the Collector's books—there is supply in excess of public demand, and therefore such wrong in our system as to demand a new adjustment. The question, in short, is not one, according to our view, to justify the heat that appears to have been evolved; nor is it one that high license love to boast, close up many places of business. Admitting this to be else.] true, as it most certainly is, you will readily concede the fact that it means the vacating Kansas City! Had any one a year ago of many of the business houses on J and K predicted that such a passenger rate would streets. Did young January lose his money, con-tract his bad habits, disgrace his parents in the common saloon kept by a poor man struggling to maintain a family, properly raise and educate his children? Would the passage of a high license close up such places as those young January frequented Would it not, on the contrary, close up respectable houses, kept by honorable men, and build up the trade of places ever noted as being crooked?

Fourth-By what right, legal, moral otherwise, has one man to impose an un-just tax upon his neighbor? Why should the man with \$200 worth of property ! made to pay \$ 600 worth of tax a year, or more than three times the value of all he has? Why should his property be con-fiscated every four months and placed in the public coffers, while you are only pay ing 2 or 2½ per cent per annum on yours barefoot, beggars of his children, and I just? Is it proper? Is it in keeping with the doctrines laid down by our forefathers in the revolutionary times? Is it in keeping with the sentiments enunciated in the Declaration of Independence? Is it in accordance with the teachings of Jefferson Is it American? Can you gainsay the truth of my argument? GEO. W. CHESLEY, JAMES I. FELTER. Sacramento, March 6, 1886. The above open, frank and proper con munication from two prominent citizen parently solicits responses from the REC ORD-UNION to the four propositions put forth. So interpreting it, we concisely express the belief conscientiously entertained

by the advocates of the affirmative.

To the first proposition we understand the friends of high license to reply tha the experience of other communities negatives the position, and that experience must be accepted as against conjecture.

That high license gives increased rev enue, which lessens taxation and conse quently increases realty values and invites capital investment and population. That the closed stores on J and K streets are due solely to the elimination of a large pay-roll by the reduction of the labor force at the railroad shops. That the occupancy of any number of places by retail liquor business produces nothing, as they must subsist wholly upon the earnings of labor in other vocations, and that hence the absence of

spond that there is no monopoly, because there is no exclusive privilege, while less-ening the number of bars gives the dealers

lieve will result, and finally that the tax is not upon the property, but upon the privilege of doing business, which, admittedly, yields enormous profit, certainly vastly greater than flows from most other business, than which the retailer of liquors pays now no more, and often less license fee. That this must be so, or else there could not be sustained a bar for every 16 voters.

That the license fee is not upon places selling by the bottle, such as grocers, druggists and others, but upon bars selling

by the drink, or where the liqour is drank

Effect Upon Property. EDS. RECORD-UNION: Some of the good people of Sacramento think that a great wrong will be done to a few keepers of saloons if high license carries this week. But what are the facts? Certain men have invested a part or all of their capital in a business that, in the view of a considerable ajority of the tax-payers of this city, does not benefit society or minister to its necessities, and never did. Although knowing that the sentiment of advancing civiliza-tion was against them, they have opened saloons which were not wanted, or continued a business which they might have would boil and bubble when we thought closed out long ago without loss to themselves. They have seen proper to thus commence or continue the business, be-cause, in their view, it was the easiest way

to have been evolved; nor is it one that should be permitted to descend into business antagonisms or any attempts—always ness antagonisms or any attempts—always ness antagonisms or the free thought the free thought to be destroyed. The imposition of this tax is insurmountable barrier; pression of the voters on it. High license means the increase of the license fee for keeping a bar and retailing liquors, as usually sold from a bar or saloon. It does not apply to the sale of liquors by druggists or

I am a candidate for Second Trustee at the Municipal Election March 9, 1886, subject to the voice of the people. subject to the voice of the people.

MY CREED IS FAIRPLAY, EQUAL AND exact justice to all. No Mongolian competition with white labor. The absolute exclusion of Chinese or any other slave labor. No water schemes to enrich speculators at the expense of the citizens. Our own Sacramento straight has served us well for 37 years, and is good enough for me. Nothing for the bondholders but just what the original law of 185s gives them. I believe in adding nothing to the funds that benefit the bondholders, because such action only increases our obligations and makes the burden heavier. The interest and welfare of the city I have at heart. Economical government, good clean streets and enforcement of all health and sanitary regulations. No barter or sale of the city patronage. No political party interference at the instance of the "Bosses" or manipulators. No unnecessary taxation. A zealous regard for our Public Schools and the education of our children. I believe in the protection of American industry and manufactories against all European competition. Holding these views I ask the people's indorsement. [mrs-2tned] JOHN RIDER.

To the Voters of Sacramento!

THREE YEARS AGO I WAS ELECTED TO the office of Second Trustee of the city of Sicramento. As Street Commissioner, I have devoted all my time and energies to a proper discharge of the duties of that office. My position upon the bond question, and all other matters pertaining to city finance, and on contem plated and needed improvements, are well known, for I have never shrunk from going on record upon every issue, and have never asked to be excused from voting upon any measure If three years' experience is worth anything and the citizens desire my continuance in office they will go to the polls on Tuesday and cast a ballot in favor of my re-election. In my official acts, I have ever stood forth a fearless champion of any proposition that was in the city's interest, that tendered to curtail her expenses, increase her revenue, improve her drainage, or add to her wealth and prosperity. I am well known to perhaps every voter in the city; to none am I a stranger, unless, perhaps, it be to a new-comer. You are acquainted with my life, both as private citizen and a public official. If you think well of my record, and are of the opinion that an experienced Street Commissioner is better than one who has it all to learn, you will cast your ballot for me. Gentlemen, I leave my case in your hands. Yours respectfully, mr8-lt H. B. NIELSEN. they will go to the polls on Tuesday and cast a

ELECTIONEER STALLION.

FALLIS. No. 1930 Tenth st. (cor. Tenth and T sts).

SACRAMENTO. DESCRIPTION.

FALLIS is a dark bay, with hind feet white; foaled March 25, 1878; bred by Leland Stanford, Palo Alto, California. He is 16¼ hands high, and now weighs 1,185 pounds; long-bodied, and of immense muscular power. His disposition is nearly perfect, and seems to know nothing but trot. He is the fac simile of his sire in form, disposition and color, with the exception of size, which is in his favor, being somewhat larger. PERFORMANCES.

PERFORMANCES.

He trotted as a two-year-old a mile in 2:38, and undoubtedly would have shown as fast as any of his renowned brothers and sisters had he not had the misiortune of cutting one of his tendons, which so lamed him that he was not worked any further until the pest winter, when he showed trials, a quarter in 35 seconds, and a mile in 2:25. He has been bred to a few mares and his produce show remarkably well. Among them he has a three-year-old that can show close to a 2:20 gait, and a two-year that is nearly as fast, and will be entered the coming season throughout the circuit on this coast. The Electioneers now have the fastest records in the world for the following ages: One-year-old, 2:36½; two-year-old, 2:1; three-year-old, 2:19½; and has 12 under 2:30, and 5 under 2:20, and could have swelled the number 30 more last seas on had Governor Stanford so desired, and his colts all-tted do not exceed 250.

PEDIGREE.

By Electioneer, he by Rysdyk's Hambletonian; Electioneer's dam Green Mountain Maid (dam of Prospero, 2:20; Dame Trot, 2:22/2; and Elaine, 2:20;) by Saytes' Harry Clay, (2:29); first dam Felicia, by Messenger Duroc, by Rysdyk's Hambletonian; second dam, Lady Fallis (dam of Socrates, Kisbar, 2:30, and g. d. of Clingstone 2:14) by Seely's American Star. Third dam, Beck Mare, by Long Island Black Hawk.

TERMS.—Will stand at the low price of \$60 for the season, payable on or before the 1st of July, 1886. Mares not proving with foal may be returned next season, tree of charge, if the horse is still in my possession.

ALBENTON, 4,023.

ALBENTON is a bright bay, without white, foaled April 14, 1883, bred by Leland Stanford Palo Alto, Cal. He is 16 hands high, and has size, style and finish. Was sired by Gen. Benton (the sire of six in the 2:20 list, and the sire of the fastest four-year-old in the world, Sally Benton, 2:173/4.) He is also the sire of Arab, that made a record last season of 2:173/4, and is now offered to be matched against any horse in the world.

The dam of Albenton is Abbie, by Almont (the sire of 32 in the 2:30 list), he by Alexander's Abdallah (the sire of Goldsmith Maid), second dam, Norma (the dam of Lucy Cuyler, one-half mile to wagon 1:95, and a mile in 2:153/2). She was by Alexander's Norma (the sire of Lula, 2:16, and May Queen, 2:20). Albenton has been handled but little, on account of his age and large size, but showed a quarter as a yearling, close to a 2:40 gait, and received the first premium at the California State Fair, 1885, for the best 2-year-old standard trotter, over colts by Sultan and other noted sires. Will make the season of 1886 at \$40 for the season, limited to twenty approved mares. Mares not proving in foal can be returned the following season, free of charge, if he is still in my possession. Miss Regan moved that all persons who herea ter apply for high school certificates be examined in special studies—literature, geometry and algebra.

Mr. Johnson seconded the motion Messrs. Hyde and Bishop and Miss Mc-Cormack considered such action unfair discrimination, in view of the fact that so many high school certificates had already been granted upon State diplomas.

Professor Hyde said that he perceived the folly of granting high school certificates solely upon State educational papers to some persons who never studied high school branches, but the Board acted in conformity with Sections 1775 and 1792 of of the State Superintendent of Public In struction, as published some months ago in the RECORD-UNION. If, however, some persons wish to receive high school certificates entirely upon the merits of an examination, the proper course seemed to be to examine such persons upon the regular high school branches, just as grammar school certificates have been and will be

issued upon grammar school branches.

Miss McCormack said that the members of the Board had provided themselves with high school certificates on their life and educational diplomas, and she considered it unfair to require others to undergo a special examination. She should certainly oppose the making of any such distinction. In reply to a remark made by a member, to the effect that if the motion were carried cated than those who were occupying

would deliver a sermon last evening in the Sixth-street M. E. Church, upon the subject "High or Low License—The Home vs.
The Saloon," drew a large congregation.
Every seat in the building, both down stairs and in the gallery, was occupied.
He read Acts xxi., 39: "But Paul said, I am a man, a citizen of no mean city; in a man, a citizen of no mean city; in the substance of the liquor dealers had their arms in crime up to their elbows. The were responsible for the drunken acts of those to whom they sold the poison. He again referred to Clunic Opera House secret session of saloon keepers, denouncing it as a conspiracy to buy bummers' votes and provide means.

Timothy v.: "But if any provide not for his own, and specially for those of his own house, he hath denied the faith, and is worse than an infidel." He said he would touch upon thoughts suggested by those quotations, but the subject of his discourse would be "the Home vs. The Saloon." The police of every city testified to the undeniable fact that the testified to the undeniable fact that the Maximum temperature 56.7: minimum tem-erature, 44.0. JAMES A. BARWICK, vs. The Saloon.' And families. The liquor traffic of the tional debt, and leave a large surplus. If the amount expended for liquors in one year were paid into a bank and disbursed by the cashier at the rate of \$25,000 per license day it would take 130 years to thus pay it them. day it would take 130 years to thus pay it out. The amount of breadstuffs annually destroyed for the purpose of manufacturing liquor is valued at \$1,400,000 The material so used is worse than destroyed. Not long since a procession of laborers carried a banner upon which was written "Our children cry for bread." What is the cause of this destrict. What is the cause of this destitu tion? Stop the distillery and breweries and turn the breadstuffs they destroy into legitimate channels. Suppose the \$1,400,000 worth of breadstuffs they destroy annually was placed in one immense warehouse, and the liquor dealers should surround it, ap-ply a torch and burn it up? Would they be looked upon as good, representative citizens; men to place in the office of Govarm of the law would gather them in and they would be thrown into jail for

DESTROYING THE PEOPLE'S BREAD. Would not it be better, however, if they would destroy it in the manner stated than to poison, divert its use, make it the source of crime and the cause of 60,000 deaths an nually, the filling of our almshouses with helpless and destitute, the sending annually of 30,000 of our people as madmen and idiots to our insane asylums? Better that the breadstuffs had been destroyed by fire than turned into a liquor that drenches your streets with blood and paints your homes.in mourning. Yet we are told that this liquor business is material to our existence: that it cannot be stamped out relpless and destitute, the sending annually istence; that it cannot be stamped ou without serious loss. Who is it takes care of the paupers? It is the honest laboring class. Simple justice would make the liquor traffic take care of the paupers and crime it produces. If such a tax could be imposed all in the liquor business would go out of it; the business would not, could not stand it. In a communication to the daily press, a liquor dealer said that it would send 100 men out with the great them, if they would quit the business

Who is it that now supports the hundreds of paupers, the direct offspring of saloons? BUYING THE PRESS AND CORRUPTING VOTERS. A few nights ago the saloon keepers and wholesale liquor dealers of this city met in secret session at the Clunie Opera House. A little bird who watched their actions and listened to their proceedings from the house-top tells how they assessed them-selves five dollars a head to raise funds to rchase a portion of the local press at 35 ents a line, the balance to be used in cor upting voters at the pols. You must watch the liquor-dealers on election day, for they can and will buy votes; not the vote of the honest, fair-minded elector, but of the degraded bummer, the offspring of the rum mill, who has graduated from the toe of the saloon-keeper's boot. Such a man will sell himself for a dollar-for a dollar represents so much whisky, and whisky is what he wants. They assess mselves to corrupt voters, to corrupt the press. But whoever heard of them assessing themselves for the purpose of supporting the drunkard's family? No ey make the drunkard, and the cause o the destitution of his family, and the care of the latter is dependent upon your charity and mine, and such institutions as the Howards.

ALL POLITICAL CORRUPTION s hatched in the saloon. It is there where the bosses are created, the slates made, the rings made, under the collar of which you so often chafe. It is stated upon the highest authority that nine-tenths of all the crime in New York is directly attributable to the liquor traffic. War, famine and pestilence, with all their devastating hor ors have not done so much evil in the world as has the liquor traffic. Gladstone said, shu up the public houses of England and you can dispense with nine-tenths of the prisons. One hundred reasons can be given why the liquor traffic should die to where one could be offered in favor of the bolition of African slavery. The latter did not cause 60,000 deaths annually, did not starve women and children, cause murder and arson, and fill to overflowing our prisons and asylums.

WILL DEFEND WITH PERTINACITY. The liquor dealers will fight for existence, will defend their nefarious business to the bitter end at all hazards, at any cost. What legitimate business makes 70 per cent. profit? Every drink he passes over his bar brings him that profit. The liquor traffic dies hard, but die it must. Another grave, deeper and wider than any of those mentioned, has been dug, but it is empty yet. If it costs a million lives and the death of another Lincoln, it must go. It may cost much bloodshed, but the death of that great evil, the liquor traffic, will surely come; it must fill that grave some day. Die, thou accursed and abhorred evil steeped as thou art in infamy and guilt Some spear will pierce the demon through the heart and it will fill that grave. All drunkards were not so from the first, but started as moderate drinkers, and soon became possessed of an ungovernable appetite. They think that they can drink and they can quit. Alas, they cannot always do the latter, for the best minds and greatest men have become as broken reeds in its grasp. KEEP OR BREAK THE LAW On election day. Some say of two evils choose the least. Others, of two evils choose neither. I shall vote for high license, for it has a prohibitory element about it. We don't expect it to close up all the saloons right away. It is claimed it will close a portion of them. If that is the case it is very desirable. A half a loaf is better than none. THE SIX COMPANIES. In Appeal Which Led to the Recent Message of the President.

By Telegraph. WASHINGTON, March 6th.—The correspondence that accompanied the President's message to Congress on the Chinese question has just been printed. On the 13th of February, Lee Kim Wah, President of the kinese Six Companies, sent the following elegram to the Chinese Minister at Wash-

SAN FRANCISCO, February 13th .- The Chi-

nese Six Companies of California respect-fully represent to your Excellency that at the present time the condition of our coun rymen on this coast is deplorable in the ap Friday night. Heinrich Hieman was extreme. The Chinese have been driven out of many towns, the people burning our dwellings, robbing our property and murdering our people without any attempt being made to prevent the same, and in nany other towns and cities there are or nized societies with the avowed purpose of expelling Chinese from such towns, forcibly if necessary, or planning to drive all the Chinese from America. Our suffer-ing is inexpressible. There are over 100, 000 Chinese who have no place of safety in which to dwell, and many millions of property have no protection. This outbreak is very dangerous. Our people are absolutely terrorized and are flocking to San Francisco, where great destitution now exists among them. The business of our merchants has also suffered greatly. If the expulsion of our people from various towns and cities continues, our merchants will be irretrievably ruined. The laborers, who can illy afford it, also suffer great loss by being summarily driven out or compelled to leave through fear of mob violence, and are coming to this city in large numbers the Eighth United States Infantry, to be Brigadier-General. A vacancy in that rank has already occurred by the promotion of Brigadier-General Terry to succeed General Hancock, and another will take place on the 16th inst., on the retirement of Major-General Pope.

It was speedily reduced to \$4, and Chicago, first class, to \$20.

The Union Pacific bulletined at 11:30:

First class, \$7, and fifteen minutes later made the Kansas City rate \$2.

At 12:30 the Southern Pacific put the Kansas City rate at \$1, at which about twenty-five tickets were sold. Hundreds of people were visiting the ticket offices, and people intending paying a visit to San Francisco and other northern points largely took advantage of the rates below \$8 for Kansas City tickets, via the Southern, Central and Union Pacific. This became quite notorious, and about 1 o'clock the Southern Pacific ceased selling low-priced tickets, and shortly afterward bulletined the same rate as those maintained by the California Southern or Atchison people throughout, viz: Kansas City—First class, \$10; third class, \$8. IN THE SUPERIOR COURT OF THE COUNTY of Sacramento, State of California. In the matter of E. A. ROWLEY, an insolvent debtor. E. A. ROWLEY having, on January 8, 1886, filed in this Court his petition, schedule and inventory in insolvency, by which it appears that he is an insolvent debtor, and this Court having on the same day made an order declaring said petitioner insolvent, and enrociting a time for the titioner insolvent, and appointing a time for the meeting of his creditors and directing notice of such meeting to be given by publication of a copy of said order, and it appearing that the publication of said order was not made as therein directed; it is now, therefore, ordered as follows: The said E. A. ROWLEY is hereby declared to be insolvent. The Sheriff of the county of Sacramento is hereby directed to take possession of all the estate, real and personal, of the said E. A. ROWLEY, debtor, except such as may be by law exempt from execution, and of all his deeds, vouchers, books of account and papers, and to keep the same safely until the appointment of an assignee of his estate. All persons are forbidden to pay any debts to the said insolvent, or to deliver any property belonging to him, or to any person, firm or corporation or association for his use. The said debtor is hereby forbidden to transfer or deliver any property until the further order of this Court, except as herein ordered. It is further [ordered] that all the creditors of said debtor be and appear before the Hon. W. C. Van Fleet, Judge of the Superior Court of the said county of Sacramento, on the 26th day of MARCH, 1886, at 10 o'clock a.
